

Ankit Kumar

Full-Stack Developer (MERN) | Self-Taught

Darbhanga, Bihar, India | Email: YOUR_EMAIL | Phone: YOUR_PHONE | GitHub: YOUR_GITHUB_URL

PROFESSIONAL SUMMARY

Self-taught full-stack developer skilled in the MERN stack (MongoDB, Express, React, Node.js), with hands-on experience building real-world projects including a password manager with a Chrome extension, an educational platform, and interactive web tools. Currently expanding into TypeScript, GSAP, Three.js, AWS, and CI/CD while pursuing formal technical education. Looking for a junior developer role to grow and contribute to production-level software.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript (learning)

Frontend: React, GSAP, Three.js, HTML/CSS

Backend: Node.js, Express

Databases: MongoDB

Tools & Cloud: Git, AWS (learning), CI/CD (learning)

PROJECTS

VaultX – Full-Stack Password Manager

Chrome Extension (Manifest V3) + React dashboard + Node.js/Express/MongoDB backend, with AES-256 client-side encryption on a zero-knowledge architecture.

AirPiano

Hand-tracking piano built with MediaPipe and the Web Audio API.

NEET2027-v2

Educational platform with a React frontend and a Node.js/Express/MongoDB backend, including custom study documentation.

48 Laws of Power – Interactive Reader

Interactive reading artifact with Hinglish chapter summaries.
